INSTRUCTIONS

Object  Find as many matching tiles as you can. Once all the tiles are matched up, the player with the most tiles wins!

Set Up

1 Put the tiles face-down and mix them up.

2 Set out the tiles face-down in rows.

The youngest player goes first!
Turn over any two tiles of your choice, so all players can see them. If they are not a match, turn them back over face-down exactly where they were. Try to remember which characters were on these tiles for later in the game!

If they are a match, take them and put them in your scoring pile. Then go again!

Once all the tiles have been taken, the game is over. Count how many tiles you have in your scoring pile. The player with the most tiles is the winner!

You can play alone, too! Set up the game as usual, but use a clock or timer to keep track of how much time it takes you to match up all the pairs. You take all the turns, going as fast as you can. But remember, you can only turn two tiles over at the same time. Play again and try to beat your best time!
