Object  Be the first player to play all of your dominoes.

Set Up

1. Mix all the dominoes face-down and spread them out to make a draw area.

2. Each player draws five dominoes. Hold your dominoes in your hand and do not show them to the other players.

3. Draw a domino and place it face-up in the middle of the table. This will be the start of a domino chain.
On Your Turn
The youngest player goes first.

Add to the domino chain by matching a picture on one of your dominoes to one end of the domino chain.

You can add to either end and change the direction of the domino chain to fit your table.

Play double-dominos just like any other domino.

If you do not have a match, take one domino from the draw area.
If you can play this domino on either end of the domino chain, you may play it immediately. If not, hold it with the rest of your dominoes.

Now it's the next player's turn.

Ending the Game
The first player to play all of their dominoes wins.
If no one can play after all the dominoes have been drawn, then the player with the fewest dominoes wins!
