

# Colors and Shapes Four-in-a-Row RULES Game

## 2 players

For this game, you need:

- 4-in-a-row Game Board
- Tokens
- Spinner

## OBJECT

Get four of your tokens in a row, either up, down, or diagonally.

## SET UP

1. Put together the 4-in-a-row game board.
2. Each player takes one set of tokens.

## ON YOUR TURN

Spin the spinner. You get to place one of your tokens on any open space that matches what the spinner shows.

If you spin...

... place one of your tokens on any space with that shape.

If you spin...

... place one of your tokens on any space with that color.

If you spin...

... you get to remove one of your opponent's tokens.

- You cannot place your token on a space that already has a token on it.
- If there is no available space on the board to place your token, then it's the next player's turn.
- If the board is completely full, and neither player has four in a row, then it's a tie game.

## WINNING THE GAME

If you get four of your tokens in a row, either across, down, or diagonally, you win!

## RULES

### 2 to 4 players

For this game, you need:

- Bingo Boards (one for each player)
- Tokens
- Picture Cards

### OBJECT

Get five tokens in a row on your Bingo Board, either across, down, or diagonally.

### SET UP

1. Each player takes one Bingo board and some tokens—it doesn't matter which kind.
2. Shuffle the picture cards and place them in a pile face down where everyone can reach them.

### PLAY!

1. Start the game by turning over a picture card. **All players** look to see if you have that picture on your Bingo board.
2. If you do, place a token covering that picture on your Bingo board. (Put the used picture cards aside in a separate stack.)
3. Take turns turning over picture cards until someone gets Bingo.

### WINNING THE GAME

If you get five tokens on your Bingo board in a row across, down, or diagonally, shout **"Bingo!"** You win! It's possible for more than one player to win on the same turn.
