**Ages 3 and Up • 2 to 4 Players**

**CONTENTS:** 1 Game Board, 4 Double-Sided Slide Tiles, 4 Movers, 4 Mover Bases, 1 Spinner

**Object**

It’s time to leave for Royal Prep Academy, but getting through Princess Sofia’s castle is a challenge. Be the first player to get to the Finish space to win!

**Rules**

**Set Up**

1. Unfold the Game Board and set it on a flat surface (like a table or a very low carpet).

2. Each player chooses a character Mover (Princess Sofia, Princess Amber, Prince James, or Clover).

3. Insert the Movers into the Mover Bases, and place all the Movers.

4. Insert the Slide Tiles into the holes in the Game Board. It doesn’t matter which one goes where, or which side faces up, just put them where you want!

**The youngest player goes first.**
On Your Turn  Spin the spinner:

If you spin a color , move your mover to the next space matching that color. More than one mover can share a space.

If you spin , take out each Slide Tile, flip it over, and put it back where it was in the game board. Then SPIN AGAIN!

If you spin , move to the next space with Princess Sofia’s magical amulet. If you land on a room with a slide, follow the slide to the end. Sometimes the slide will take you forwards, and sometimes it will take you backwards. It’s a surprise!

Ending the Game

The first player to get to the Finish space is the winner!

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.
